

Dear Valued Everett Business,

Another giving opportunity is here! The Northwest Neighborhood Association is launching our famous **Mother of All Garage Sale, MOAGS**, on August 1st, 2026. This year we are hoping to host over 100 homes again and increase sales everywhere with more street signs and advertising opportunities. We are looking for community oriented businesses like yours to donate between \$100 and \$1,000 to support the costs of the three P's – *printing, promotion, and porta-potties!*

MOAGS is our main fundraiser and we would be so appreciative of your support. It is only with help from the community that this event is possible! The NWN Association uses the money raised by MOAGS throughout the year to host a variety of family friendly events, to improve community spaces, and to organize monthly meetings.

We have 4 levels of giving and we request that your donation and logo are submitted by June 22nd for prompt advertising.

Please consider the following tiers:

Platinum Donor at \$1000: *You will be recognized on large banners that prominently display your logo. The banners will be located at major intersections in the neighborhood for the month of July and into August. Your logo will also appear on the garage sale map, large posters, small flyers, our website, newsletter, and social media posts.*

Gold Level \$500: *Your medium sized logo will appear on the banner, garage sale map, large posters, small flyers, our website, newsletter, and social media posts.*

Silver Level \$250: *Your small logo will appear on the banner, garage sale map, large posters, on our website, newsletter, and social media posts.*

Bronze Level \$100: *Your name will appear on the garage sale map, our website, newsletter and social media posts.*

The donation deadline is June 22nd, 2026.

If making a contribution is a yes for you, please email your current logo to nwneverett@gmail.com.

Thanks so much for taking the time to consider supporting the NW Neighborhood.

Kari Quaas, Treasurer

Northwest Neighborhood Association
